

Designed for Beauty
BUILT TO LAST

Quality Storm Doors Since 1930

HELIARC-WELDED CORNERS | INTERLOCKING HINGES | SELF-LUBRICATING BEARINGS | POWDER COATED | NON-GLARE SCREEN | TEMPERED GLASS

10 REASONS TO TRUST TRAPP® STORM DOORS:

- 1 TRAPP® HELIARC WELDED CORNERS:**
Welded corners will never sag or separate like screwed-together corners.
- 2 POWDER COATED FINISH:**
Our baked-on finish is durable, easy to maintain, and available in 13 colors.
- 3 FOUR INTERLOCKING HINGES:** The recessed hinges interlock with the edge of the door, providing superior performance.
- 4 FOUR SELF-LUBRICATING BEARINGS PER HINGE:**
Reduces wear and provides smoother operation throughout the life of the door.
- 5 1 1/4" THICK FRAME:**
Rigid, .062" heavy gauge aluminum is superior to wood-core construction storm doors which can separate and warp over time.

★ SPECIAL SIZES:

Because we weld our doors, we can make just about any size. Custom sizes are affordable and timely. Double doors are available in any style.

- 6 NON-GLARE SCREENS:**
All doors come with a Trapp® fiberglass screen which resist tears and will not dent or crease like aluminum screens.
- 7 HEAVY DUTY CLOSER:**
One heavy duty hydraulic closer provides smoother operation than two air closers, allowing for a safety spring to protect the door and closer from wind damage.
- 8 CHOICE OF HARDWARE:**
We offer a variety of handle styles and finishes to fit any home design. Interior hardware is available in black or white.
- 9 TEMPERED GLASS:**
Every Trapp® Storm Door is built with tempered safety glass, including all custom sizes.
- 10 PILE SWEEP:**
More durable than traditional vinyl sweeps.

- Shown with exclusive Trapp® Classic Latch in satin and optional Satin Inlaid Kick Plate. Also available in brass.
- Available in all Trapp® colors.

Trapp® Craftsman Storm Door in Burgundy:

A new and exclusive storm door from Trapp's designers. Available in 36 x 80 in all 13 colors. Match your latch selection with an optional kick plate for the finishing touch.

Trapp® 108 Self-Storing Door
in Sandtone. Shown with Italian Latch.

Easily Adjustable
Sliding Panes

Trapp® Self-Storing Storm Door in Beige:
Shown with exclusive Trapp® Classic Latch in brass.
Available in all Trapp® colors.

**ONE OF OUR BEST SELLERS:
THE SELF-STORING STORM DOOR.**

This door's popularity is driven by its convenience: you won't ever have to change from glass to screen during the change of seasons – to get fresh air, simply slide the sash up or down to ventilate from the top, bottom, or both at the same time. Easy locking latches make opening, closing, and cleaning the glass a breeze.

Trapp® Borderlite Storm Door with Matching Sidelites in Terratone:

Intricate beveled grooves in double border design adds sparkle to any entryway. The Borderlite Sidelite glass is frosted for privacy. Shown with exclusive Trapp® Classic Latch in brass and optional Brass-Look Surface Mounted Kick Plate. Also Available in Satin. Available in all Trapp® Colors.

THE SOLID BUILT-IN GRILL
OF THE DEFENDOOR™ BY TRAPP®
**PROVIDES ENGINEERED
STRENGTH AND DURABILITY**

**FORM MEETS FUNCTION:
THE DEFENDOOR™ BY TRAPP®:**

A full view door that lets you ventilate with style while enhancing your security. DEFENDOOR™ features a strong extruded aluminum grill built right into the welded door frame, and a standard Eternity mortise lock with deadbolt. The beauty of this door is only equaled by the peace of mind it provides.

DEFENDOOR™ by Trapp® in Black:

Solid construction and attractive design make DEFENDOOR™ the logical choice for anyone looking for additional security without sacrificing ventilation and appearance.

WHAT PEOPLE ARE SAYING ABOUT TRAPP® STORM DOORS:

"I've been installing Trapp doors for over 25 years. With your fiberglass screen wire, I've never had to replace a screen for being pushed out or torn. Thanks for making me look good!"

Walt W.
West Bloomfield, MI

"We are installers of Trapp products, and my father has dealt with Trapp Co. for over 50 years. We enjoy this product very much and recommend it to anybody who wants top quality merchandise! The entire Trapp family is a pleasure to deal with."

Tom T.
Pinckney, MI

"I purchase nothing but Trapp storm doors. I have always loved your products. I have had my Trapp storm door for over 15 years and have never had a problem with it. Thanks for standing behind your products."

Michael Z.
Fort Wayne, IN

THE TRAPP® ADVANTAGE:

The welded frame is a Trapp® hallmark, and the strongest type of construction available for storm doors. Compare with the screwed-together corners found on other storm doors.

THE TRAPP® WARRANTY:

Trapp storm doors are warranted to be free of defects in material and workmanship for the life of the door. Hardware items are warranted for one year by the hardware manufacturer.

Any defective part will be repaired or replaced at the manufacturer's discretion. This warranty does not cover broken glass, torn screening, or labor costs for installation, removal, reinstallation, or transportation. This warranty does not cover damage due to unreasonable use, lack of maintenance, storm damage, or improper installation.

DON'T FORGET THE ORIGINAL TRAPP® SCREEN SAVER®:

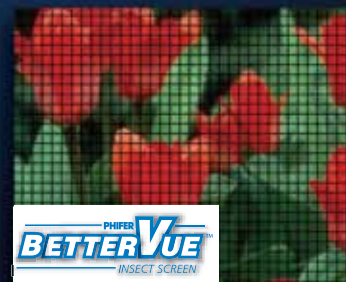

Our 1/4" tempered safety glass push bar protects your screen without obscuring your view.
